Dear Community,

As Indian Wells had another year come to an end, I'd like to reflect on all of the promising developments Indian Wells has seen in the past year, as well as express my excitement about what is yet to come.

I am pleased to report that over the past few months, the City has made great progress on several important initiatives. First, the completion of energy efficiency projects will yield cost savings of an estimated \$12 million in the first 20 years of the projects' lifecycle, which will produce over 2 million kWh and remove over 2 million pounds of CO2 from the environment. These projects included the installation of solar panels at the Indian Wells Golf Resort and City Hall, energy storage capabilities HVAC replacements, EV charging stations and more sustainable infrastructure at multiple sites throughout the City.

In addition, the City offered programming at the Indian Wells Golf Resort for Winterfest from November through January 1, which has provided our community with a new and fun holiday experience. The community was able to get out and enjoy the ice-skating rink and other fun family-friendly activities to make the most of the season. Community also enjoyed Shots in the Night featuring the new Top Tracer Technology.

We are also looking forward to new ventures taking shape such as the opening of a Sprouts Farmers Market in the Village Shopping Center in the spring and the renovation of the Miramonte Resort & Spa by Tommy Bahama set to be completed in late 2023. Additionally, in partnership with Genton Cockrum Partners, the City is set to develop a resort-style experience at the vacant site along Highway 111 and Miles Avenue.

Please stay updated on the City's projects by checking <u>www.cityofindianwells.org</u> on the Project webpage. There, you will be able to find project details, timelines, and budgets.

If you have any questions about anything Indian Wells, feel free to give us a call at (760) 346-2489, pay us a visit at City Hall or stop by one of our upcoming Coffee with the Mayor/City Manager events starting in February. I look forward to seeing what this Spring has in store for our community.

Sincerely,

Chris Freeland City Manager

From the Chairman of the Board

On behalf of the Indian Wells Chamber of Commerce and our business partners, we welcome you to experience all that our city has to offer.

Our city boasts four world class resorts, relaxing spa facilities, award winning golf courses, International tennis tournaments and many fine dining establishments. At the center is the Indian Wells Golf Resort which is open to all with its fine dining inside the VUE Grille & Bar, meeting facilities, desert views and friendly atmosphere, and of course golf.

Indian Wells Chamber of Commerce is unique in that we not only cater to our local business community, but we also offer a social member for individual residents. Our events and mixers allow our members to not only connect business to business, but also directly with our residents. We take pride in assisting with every phone call or request residents may have. Our office is available to meet with our business partners for a complimentary business strategy session throughout the year. These sessions

offer an opportunity to brainstorm regarding growing one's business and connecting within the Indian Wells community.

The COVID crisis put a strain not only on our residents but also our business community. Our GOAL for 2023 is to continue supporting our business members in helping them getting back on track. We look forward to bringing back more monthly mixers as well as our two signature events this year, one being our Annual Golf Benefit, and secondly our ever-popular Annual Classic Car Show event.

Whether you are shopping at our specialty shops or boutiques, enjoying the many wonderful restaurants, or just needing the day-to-day service of a cleaner or plumber or insurance agent, we invite you to use our guide as your primary business resource, and to consider our members for all your needs.

Sincerely,

Melanie Rhodes

"Your Neighborhood Italian Cafe Restaurant"

The Valley's Favorite Italian Restaurant

Six Great Family Locations

3 GENERATIONS SERVING THE VALLEY

In 1972 the Del Guidice family moved from Brooklyn, Queens, New York, and settled in the Coachella Valley. 50 years and three generations later, the family still enjoys serving old-world, family style recipes, reaching back five generations to far away Naples, Italy, for the authentic flavor that is uniquely Mario's.

Mario and Family, and our 6 Coachella Valley Italian Cafes, encourage participation in community service activities. For more than 50 years the Mario family have all been locally minded restauranteurs, providing help for our communities' children. From the beginning we have sponsored fund-raising activities for organizations that are special to us, giving 100% of the proceeds to such groups as • Desert Arc, • Relay for Life, • 13 Local High Schools, • The Homeless, • First Responders, • Coachella Valley Rescue Mission. More than 20,000 meals are provided annually to help these great organizations or raise money for their good causes. We invite you to join us in our year round efforts to support these vital groups.

Real Estate

The Real Estate Market in 2022 proved to be very challenging for all participants, including lenders, escrow and title companies, as well as buyers and sellers and their agents! Although real estate is location, location, location, we are not immune from our local market being subjected to changes taking place globally. The real estate market fluctuates the same as any other market, and its direction is driven by a lot of the same factors that affect the stock and bond markets. Uncertainty is a real negative for any of the markets, causing volatility and angst among participants. In 2023, we will be focusing our client servicing more toward individuality; meaning each situation is unique whether the decisions involved are to buy or to sell. Timing of the final decisions is also unique to each client and their individual needs.

Our Desert is different in that our market is geared towards second homes and retirement homes. In other markets, when a home is listed for sale, those sellers are probably looking to buy another home to either upsize, get into a better school system, have a better commute, etc. Many of our sellers are not buying replacement properties here and that could be one of the reasons that our market still shows a slight advantage for sellers. Our inventory is slowly improving but sales are keeping that number from increasing rapidly.

2023 will be very interesting from an economic standpoint. Interest rates have increased rapidly as have the mortgage interest rates. Experts have diverse opinions of where mortgage rates will be throughout 2023. They range from a low of about 5% to a high of 7+%. Indian Wells should not be greatly impacted by mortgage interest rates because so many of the homes here are in the high price range and a lot of those sales as well as lower priced sales are for cash. The extreme volatility of the stock market has given some home buyers the opportunity to take some of those investments and reinvest in a more stable real estate holding.

Experts are also giving diverse opinions about whether or not we will experience a recession. Some predict a deep recession, some say it will be a shallow recession, and some are saying that there will not be a recession at all, rather there will be a "soft landing" economically. There is an old saying that says something along the lines of "you can take all the economists in the world and put them end to end and they still will not reach a conclusion".

When considering a purchase or sale of property, you will be best served by working with an experienced agent. Yes, you could save some money by using one of the on-line sites, but you lose the opportunity save even more by getting better prices, having smoother transactions with secure and correct procedures for closing escrow and properly recording titles. Work with an agent that you are comfortable with and who will always tell you the truth even if the result of that truth makes you change your decision to buy or sell a property. If your agent also makes sure that you know everything that they know about the transaction when they know it, keep that agent! They will be invaluable as they help you make informed decisions

EXTRA SPEED, CONVENIENCE AND PEACE OF MIND FOR YOUR BUYERS
